

## Mitchell Cloud™ Estimating

# Estimating Made Easy

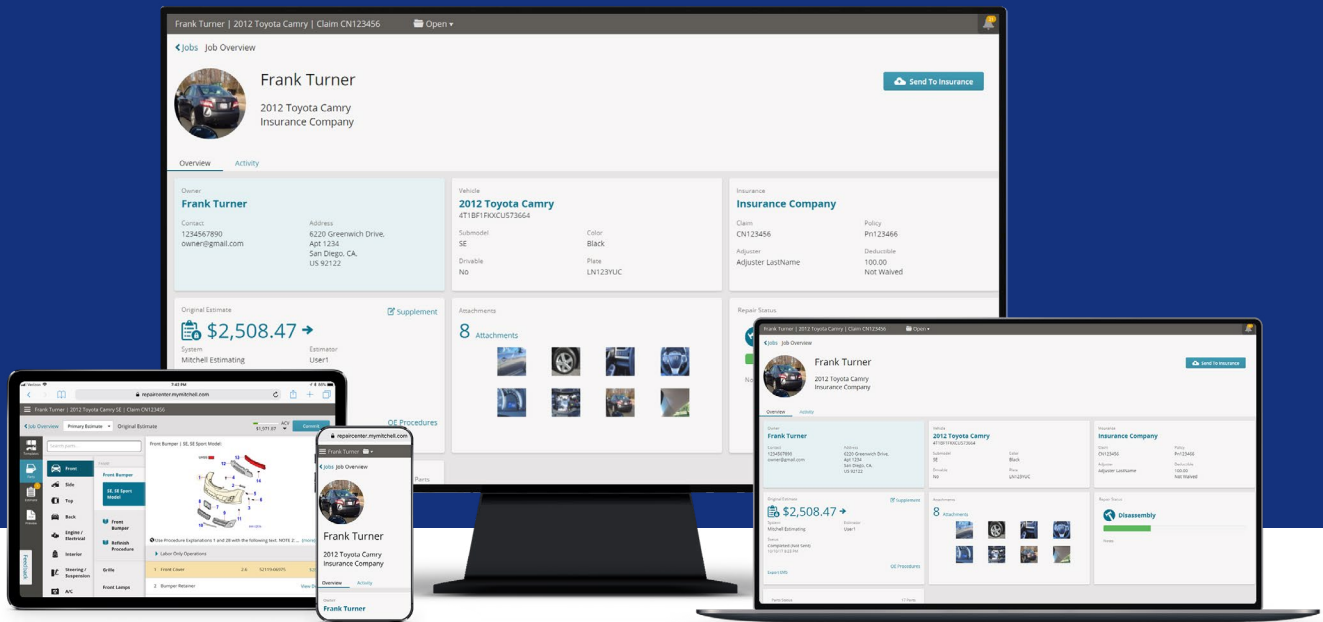

Mitchell Cloud Estimating has revolutionized the appraisal process—providing a simple-to-use, cloud-based interface and seamless access to OEM repair procedures from your tablet, laptop or smartphone.

**Let Mitchell Cloud Estimating simplify the appraisal process for your collision repair facility so you can focus on proper, safe vehicle repairs.**

Backed by 75 years of collision repair expertise, Mitchell Cloud Estimating helps you:

- › Increase Efficiency With Templates to Guide Estimators
- › Decrease Cycle Time by Placing Critical Information at Your Fingertips
- › Boost Customer Satisfaction with Fewer Supplements

## Access all the tools you need—anytime, anywhere and from any device.

### Write Estimates On The Go

Available on any Internet-enabled device, Mitchell Cloud Estimating lets you complete appraisals from the claimant's house, the shop floor or your office. Since it's web-based, your work is saved automatically. Plus, you choose the browser and EMS or BMS standard.

### Review Integrated Repair Procedures

**Integrated Repair Procedures**—powered by **Mitchell TechAdvisor**—automatically display the relevant OEM repair information. Having this available for passenger vehicles can assist you with estimating and repair blueprinting. You can also view your **Mitchell Diagnostic** scans from within the estimate.

### Perform Appraisals on Specialty Vehicles

Mitchell Cloud Estimating supports motorcycle, ATV, RUV and snowmobile appraisals. Receive parts, pricing and recommended labor times for passenger and specialty vehicles in a single, intuitive platform.

### Assess Damage on Medium- and Heavy-Duty Trucks

**Mitchell Cloud Estimating TruckMax** is designed specifically for medium- and heavy-duty trucks. It features extensive commercial truck graphics, P-pages, aftermarket parts, labor hours and more, helping you simplify the appraisal process.

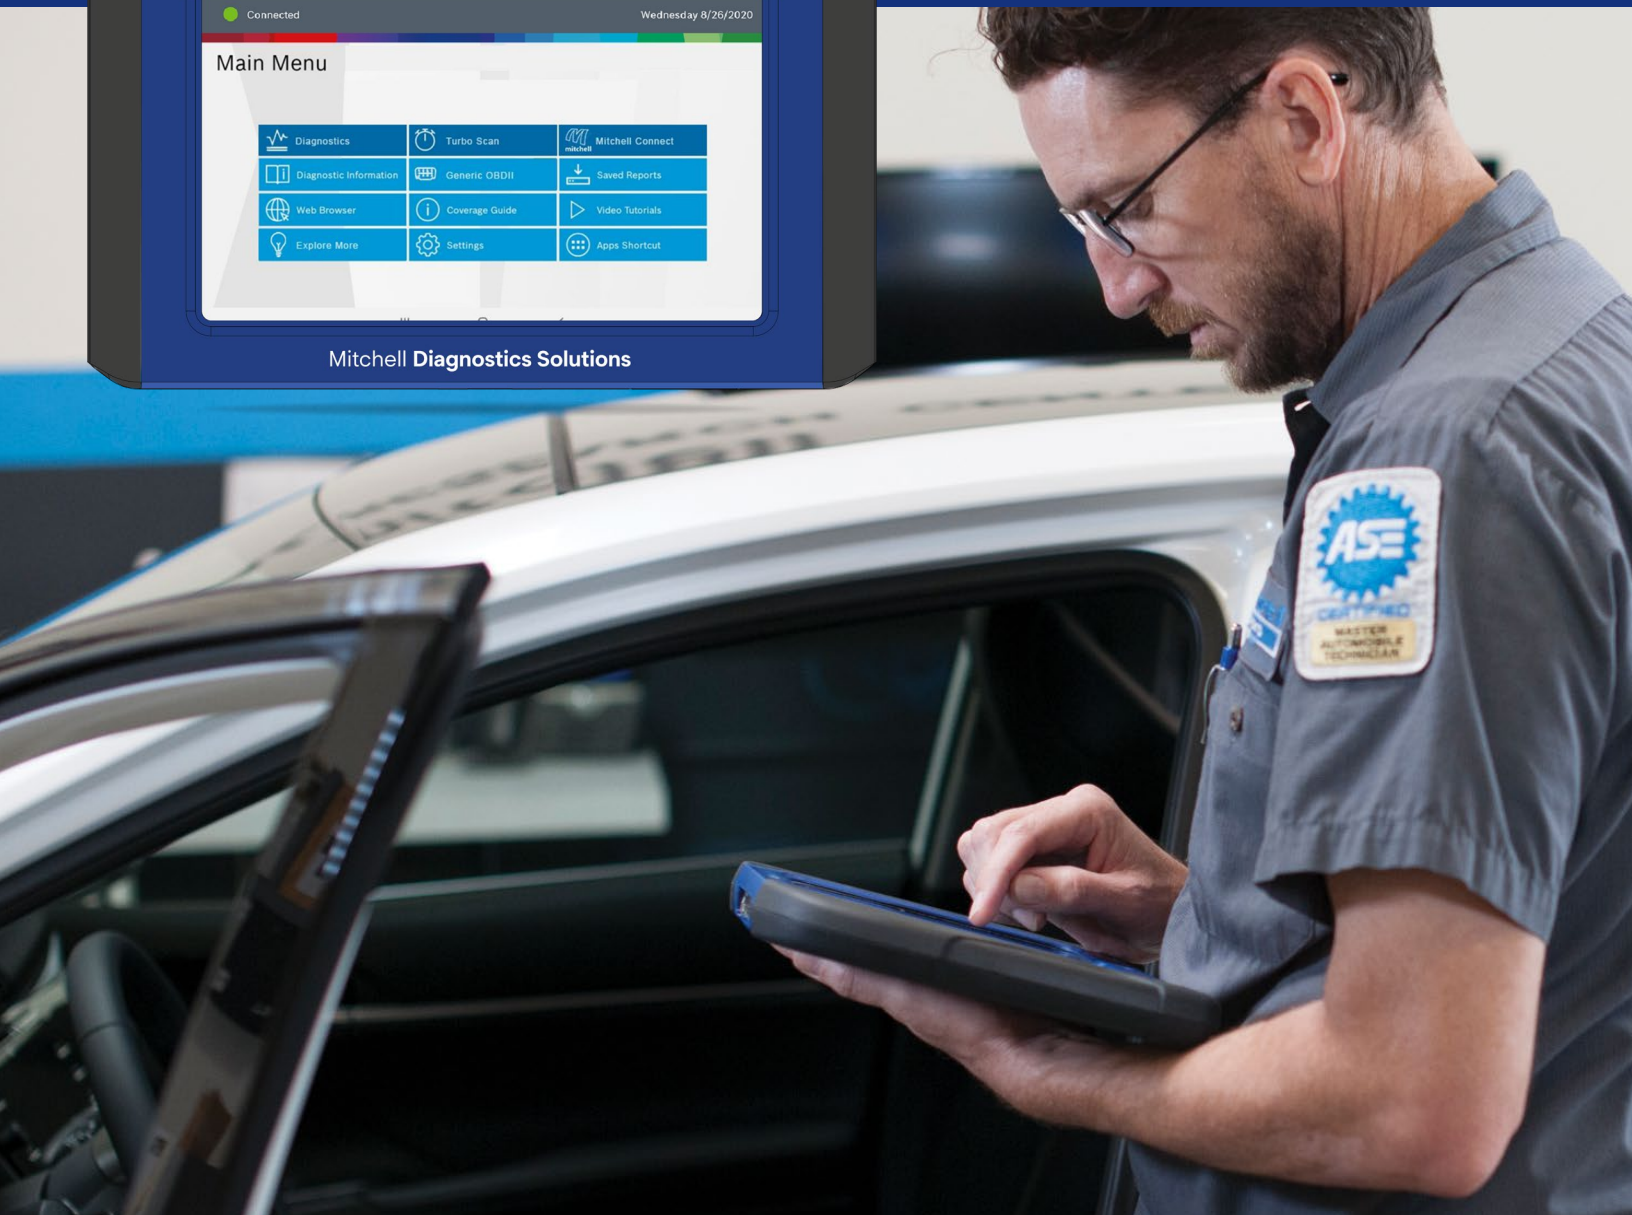

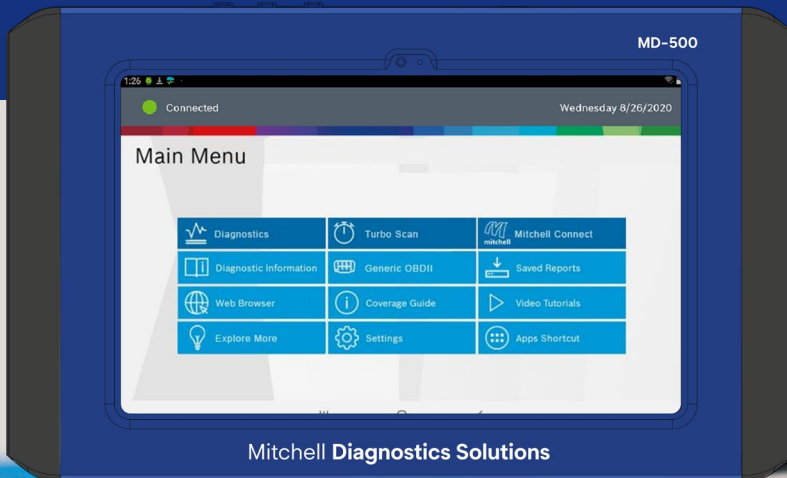

### Receive Automatic Software Updates

You'll always have the latest product features—without having to wait or install the software yourself. This saves significant time and allows you and your estimators to leverage the most up-to-date repair data.

# Taking Estimating a Step Further

Mitchell Cloud Estimating seamlessly integrates with our MD-500 device, a groundbreaking solution that lets you perform diagnostic scans and calibrations while also giving you the power to write estimates, access in-line repair procedures, order parts and upload standardized reports—all from one device.
