

Mitchell Cloud™ Repair

Improve the Way You Work

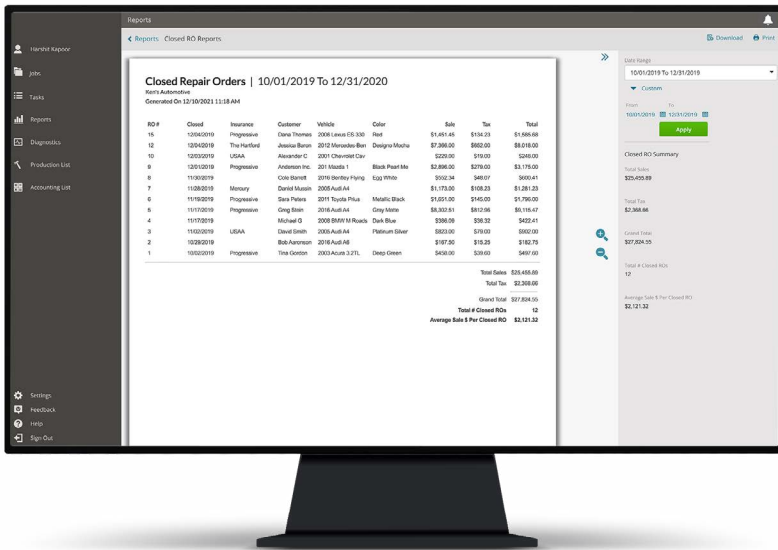

Built with your business goals in mind, Mitchell Cloud Repair features time-saving tools that can help you streamline operations and efficiently manage repairs.

Our newest cloud-based solution is accessible from any Internet-enabled device—tablet, smartphone, laptop or desktop computer—and integrates seamlessly with Mitchell's cloud ecosystem.

Developed for collision repair facilities like yours, Mitchell Cloud Repair provides:

- **Estimate Freedom**
Supports all major estimating systems including Mitchell Cloud Estimating, UltraMate, CCC and Audatex.
- **Powerful Production Management Tools**
Makes it simple to track repair work and customer vehicles in your facility as well as update carrier repair status based on your production flow.
- **QuickBooks Online Interface**
Syncs estimate categories to your chart of accounts and allows you to quickly transfer sales data to QuickBooks Online.

"Mitchell Cloud Repair gives me the flexibility to do my job from anywhere and any Internet-enabled device. From production management to parts ordering, it simplifies repair workflows and lets me work more efficiently so that I can remain focused on delivering proper, safe repairs and exceptional customer service."

—Ken McCalsky, K&D Auto Body

Closed RO Reporting	Checks revenue totals on closed repair orders and eliminates the need for paper tracking.
Repair Order Management	Gives you the ability to convert an opportunity to a repair order, manage a list of repair orders and close repair orders.
Repair Documentation	Lets you download or print a final bill, RO document or work order.
Disclaimers	Allows you to manage and apply disclaimers to a repair document and, when necessary, add signature lines to the order.
Parts List by Email	Makes it possible to order the parts you need, write a personalized note and send the parts list to a supplier.
One-Click Ordering	Permits users to submit an electronic purchase order to OE dealers in a single click with OEC CollisionLink integration.
Cloud Platform Integration	Provides easy access to the parts order interface directly from Mitchell Cloud Estimating, along with the entire Mitchell Connect platform.

Improve the way you work by managing your business from the cloud with Mitchell Cloud Repair.
